

Class 4 Homework Grid 04.02.19 to 25.02.19

We will celebrate and share your homework and creations when we return from half term on Monday 25th February.

Remember that you can use any paper you need from school and then carefully stick your beautifully and proudly completed work into your homework folders.

Maths

Percentages and Money - Make a list of 10 different items you could buy in a shop. Find their price and calculate what 10% would be. Subtract this from the original price to find out how much each would each item cost if they had a 10% discount.

Mastery: How much would they be if they each had a discount of 25%?

Reading

Choose a section of your reading book to read aloud to a member of your family. Practise on your own first. Think about how you read the dialogue, how you used emphasis, tone and volume. Once you have done it, ask them to evaluate and assess your narration and then write down what they said.

Reading Comprehension - Continue to read for at least twenty minutes at least four times a week.

English

Report Writing - Owls are one of the birds that have featured heavily in both our books that we have been reading in the class - Skellig and Mina. Write your own report about Owls. Collect and sort information using a variety of sources including the internet. Include an orientation, sub headings for each paragraph which could include:

Appearance, Habitat, Prey, Different or Species, Famous Owls in Literature.

Creative Learning

Find and discover your own fascinating feature of living nature and pore over it carefully. It could be, for example, a shell, fossil, leaf, insect or animal. Capture all of its detail and beauty with your own pencil drawing and then shower it with imaginative and precise language.
