

Class 4 Homework Grid 21.01.19 to 04.02.19

We will celebrate and share your homework and creations on Monday 4th February. Make an excellent beginning to the New Year and maintain your own high standards of presentation. Remember that you can use any paper you need from school and then carefully stick your beautifully and proudly completed work into your homework folders.

Maths

Calculations - Create and then complete at least 12 calculations for all the four operations - Addition, Subtraction, Multiplication and Division. Use whole numbers up to 6 digits, then Decimals and then Fractions.

Continue to complete the Mymaths Tasks that you have been set and well as Times Table Rockstars

Reading

Reading Comprehension - Once you have completed a chapter or section of your own reading book, compile a set of ten comprehension questions that would test someone's understanding of that piece of writing. Can you make a balance of Spotter and Cluefinder questions? You could ask somebody else to read that part and then ask them to answer your questions.

Continue to read for at least twenty minutes at least four times a week.

English

Bring in an example of your favourite part of nature - It could be a drawing, picture, PowerPoint, book or even the real thing that you bring in to present, share, celebrate and wonder with the rest of the class.

Creative Learning

Find and discover your own fascinating feature of living nature and pore over it carefully. It could be, for example, a shell, fossil, leaf, insect or animal. Capture all of its detail and beauty with your own pencil drawing and then shower it with imaginative and precise language.
